

HIGH END SYSTEMS

SolaFrame Studio

The new silent partner

HIGH END SYSTEMS

SolaFrame Studio

The fanless, convection-cooled SolaFrame Studio prioritizes high quality features, beautiful spectral output and silent operation. The fixture's 10,000 lumens and full curtain framing are a perfect fit for theatres, concert halls, opera houses, film/TV broadcast studios and houses of worship. With a feature set designed for exquisite projection control and gorgeous color rendering, SolaFrame Studio can quietly steal the scene.

- Bright white 300 W High CRI engine producing 10,000 field lumens
- Convection-cooled engine for completely fanless operation
- High quality 13-lens optic system with patented Lens Defogger
- Extremely powerful 5.5 - 57° zoom
- CMY / CTO-Linear color mixing system
- Seven position plus open replaceable Color Wheel
- Full-curtain framing system for total control of beam shaping
- 16-blade iris for extremely tight beam effects
- Light diffusion with additional, optional heavy diffusion
- Seven position plus open Rotating Gobo Wheel
- Linear Prism for controlled pattern replication across a stage
